

An outdoor dining area featuring a wooden pergola structure with a deck floor. The pergola has several wooden posts and beams, with string lights hanging from them. The deck is made of dark wood planks. In the background, there is a brick building with windows. The text 'tür offen' is overlaid in a large, light blue font.

About Us

At Tür Offen, we focus on being more than just a manufacturing company. We are a team of skilled professionals encompassing various disciplines, united by a shared passion for creating innovative solutions for today's architectural needs.

Our in-house design team breathes life into ideas, transforming them into functional and aesthetically pleasing products. We also have a team of exceptional planning advisors who guide our clients through the complex maze of project planning. They provide expert advice, ensuring that our solutions not only meet your needs but also align with relevant regulations and planning permissions.

Together, we make Tür Offen the go-to destination for holistic modular solutions.

What We Offer

Logistics

Glamping

In collaboration with Enchanted Creations, Tür Offen offers unique glamping pods that perfectly blend comfort and nature, providing an unparalleled experience for campsite proprietors and their guests.

Each pod is a product of our combined expertise - Enchanted Creations' renowned craftsmanship in creating enchanting, bespoke wooden structures, and Tür Offen's committed focus on sustainability and innovation. These pods are not only aesthetically pleasing but also robust, weather resistant, and designed to minimize environmental impact.

They offer a luxurious, eco-friendly accommodation solution that raises the bar for outdoor hospitality, making your campsite a sought-after destination for those seeking a unique and memorable glamping experience.

Welfare

Understanding the need for on-site amenities, our welfare units are designed to provide a safe and comfortable space for construction workers to rest, eat, and freshen up. These units are constructed with robust materials to withstand the rigours of a construction site, while their interior is thoughtfully designed to provide a homely atmosphere amidst the harsh work environment.

Just like our modular buildings and garden rooms, our welfare units are built using sustainable construction methods, reflecting our commitment to both our clients' needs and environmental responsibility.

Bespoke

Whether it's a modular office for a bustling city centre, a classroom for a rural school, or a healthcare facility designed to respond quickly to emergency needs, our expert team is adept at creating spaces that are both functional and inspiring. Each of our creations is a testament to our design ingenuity, meticulous planning and sustainable construction methods.

At the heart of it all, our mission is to provide modular buildings that truly serve their purpose, reflecting our clients' vision while respecting our planet's resources.

Garden Rooms

At Tür Offen we can create customised garden rooms that serve as an extension of your lifestyle, providing space for offices, gyms, and a variety of other activities. Our garden rooms are more than just an addition to your property—they are a blend of form and function, designed to merge seamlessly with your outdoor space and cater to your unique requirements.

Whether you need a quiet, picturesque home office away from the bustle of household activities, or a personal gym with views of your garden, or even a cosy corner for artistic and therapeutic pursuits, our garden rooms are thoughtfully designed to meet these expectations. They are built using sustainable materials and practices, affirming our commitment to environmental responsibility, while never compromising on quality and aesthetic appeal.

Quality Assurance

We place paramount importance on quality assurance for all our products, ensuring they meet the highest standards of design, durability, and functionality. Each garden room, modular building, and welfare unit that we manufacture undergoes a rigorous quality control process, including meticulous inspection and testing at every stage of production.

Our dedicated team of quality assurance professionals work tirelessly to ensure that every product leaving our facility is a testament to our commitment to excellence.

This uncompromising approach to quality not only guarantees the longevity of our products but also fosters trust and satisfaction among our clients.

Logistics

From the moment you choose Tür Offen as your modular building provider, our logistics team jumps into action, meticulously planning every aspect of the production and delivery process.

Our comprehensive logistics include everything from coordination of raw material sourcing, production timelines, to the safe delivery and installation of your modular unit. We understand that our clients have enough on their plates, so we shoulder the responsibility of ensuring that everything runs smoothly and according to plan. Our commitment continues even after delivery, as we remain readily available for any maintenance or troubleshooting needs.

This approach guarantees not only the timely delivery of your product, but also your peace of mind, knowing that every detail has been taken care of with precision and care.
